AUTOIGNITION TEMP:	Not Available
DECOMPOSITION TEMP:	Not Available
FIRE EXTINGUISHING MEDIA:	This material will not burn or burns with difficulty. Use an extinguishing agent suitable for surrounding fires.
FIRE CONTROL TACTICS:	Wear self-contained, positive pressure breathing apparatus and full fire fighting protective clothing. Keep unnecessary people away. Use as little water as possible. Dike area of fire to prevent pesticide run-off. Use spray or fog - solid stream may cause spreading. Do not decontaminate personnel or equipment, or handle broken packages or containers without protective equipment as specified in the Exposure Control Section. Decontaminate emergency personnel with soap and water before leaving the fire area. Avoid breathing dusts, vapors and fumes from burning materials. Control run-off water - if water enters a drainage system, advise the authorities downstream. This product shows no impact sensitivity when subject to 2 kg/100 cm impact entry.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

SPILL OR LEAK PROCEDURES:

Wearing appropriate protective clothing and equipment (see "Exposure Control" section 8) shovel/sweep spilled material into covered containers for proper disposal (see "Waste Disposal" section), or reuse if possible. Rinse area and tools several times with soapy water. Contain and absorb rinsate with inert absorbents (e.g. granular clay or sawdust), and place into the same disposal container as spilled material.

Depending on the quantity released to the environment, notifications to regulatory authorities may be required (see "Additional Regulatory Information" section). If spill is to a water body, immediately notify applicable authorities downstream, so that contingencies can be taken, if necessary.

SECTION 7 - HANDLING AND STORAGE

DO NOT contaminate water, food or feed by storage or disposal. Store in secure, dry, well-ventilated separate area; away from children, livestock and food products.

Not for use or storage in or around the home.

Maintain good housekeeping to control dust accumulations.

Keep away from sources of ignition and protect from exposure to fire and heat.

Segregate from oxidizers and incompatible materials listed in the Reactivity Data Section. (SECTION 10 - STABILITY AND REACTIVITY)

Keep the material out of reach of children.
